

## Quilter's Flower Garden

It's time for some summer stitching fun - a late summer mystery!

We are going to create our own garden path. Gather your florals, the green grass of summer, yellow sunshine and add a bright blue sky!

This will make a nice lap size quilt approximately 64 X 85 with the borders. Or 56 X 77 without the borders.

Let's build our garden!

We used Fat Quarters for all. Make it scrappy! And yes, I had to go find florals. My stash is flower poor – so I discovered. I always pick up extra fabric. Better to have a little extra!

Well, Folks – It is hard to measure scrappy!! These are approximate amounts.

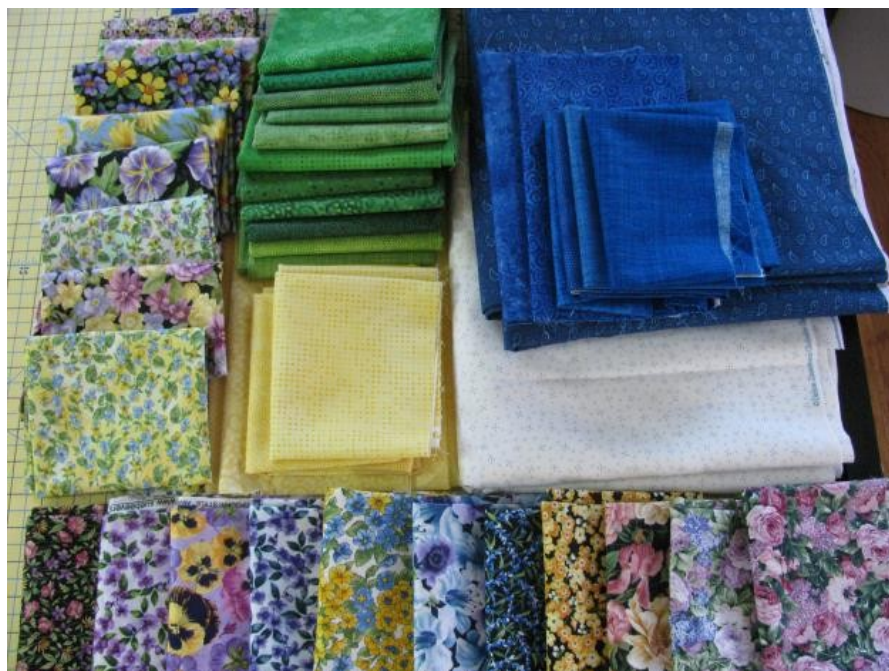

Florals – enough to make 2 1/2 yds. I picked up fat quarter florals on a shop hop. Variety!

Green Grass – enough greens to make 2 yds.

Yellow Sunshine – enough yellows to make 2 yds.

Bright Sky Blue – enough blues to make 1 1/2 yd.

White – I used white with a little dot of blue. Can be solid white. 1 1/2 yd.

We will add a smaller border to frame our quilt.

Framing Border -  $\frac{1}{2}$  yd. I used my white.

Border – 1 yd. I used one of my blues.

Binding –  $\frac{3}{4}$  yd.

Throughout the pattern I have used the Easy Angle ruler. The same one used in the last mystery. Since I have this in my ruler collection I should use it – right?

I have tried to give other ways to cut this out. But you may have more biased edges to deal with and possibly a little more trimming.

Your choice!

Okay, let's build our garden....
