

## Cropped Bricks!

You always need a few edge bricks along a walkway...

For these you need a 4 patch, a pinwheel and a split 4 patch triangle.

The 4 patch has the green square in the top right corner and the bottom left corner. The pinwheel. And then the split 4 patch triangle – the triangle made with the green square and two yellow triangles. The Split 4 patch triangle has the green square next to the pinwheel on the bottom right.

Look at the picture!!

You need 6 cropped bricks.
