

## Finishing Edge Brick

These will be the little ones to finish off the walkway.

This will take a 4 patch and a split pinwheel.

Pay attention to the placement of your green on your 4 patches and add your split pinwheel with the split color square by the bottom right yellow of the 4 patch.

Check this picture – closely!!

If your pinwheels turn the same way mine do, then this is correct!

This will work when we lay it all out!!

You need 4 of these smaller edge bricks.
